Global To Regional: Türkiye's Edge

Global Automobile Production Hubs

The top 20 producing countries account for 93% of global output, forming five distinct regional clusters.

* Russia is among the top 20 producers by volume, yet they mainly produce for the domestic market.

Source: OICA, Production Statistics (2025)

Global To Regional: Türkiye's Edge

Automotive Exports vs. Regional Proximity

the European hub is the most regionally concentrated of all

Source: ITC Trade Map (HS 8702 – Buses & Coaches, HS 8703 – Passenger Cars, HS 8704 – Trucks & Vans), 2025 export data reported by 20 major producing countries.

Methodology: For each importing trade flow, the dominant supplying hub (East Asia, Europe, North America, South & Southeast Asia, South America) was identified based on aggregate export value.

Note: Results reflect reported trade flows and may include re-export activity. Transit hubs may show atypical dominant hub assignments.

Global To Regional: Türkiye's Edge

European Hub: Production

14 countries produce at least 100k vehicles annually

Total Production (Unit)

Automotive Industry In Türkiye

Historical Milestones

Türkiye's automotive industry has been built on nearly a century of continuous manufacturing experience

Automotive Industry In Türkiye

OEMs in Türkiye

From passenger cars to EVs, Türkiye hosts 13 OEMs and 15 production facilities across every major vehicle category

Automotive Industry In Türkiye

Leader of the Region in Automotive

Ranked #13 globally in total production, Türkiye leads Europe in all commercial vehicle segments

of Global OEMs

World Automotive Production in 2025 (M, Units)

Türkiye's Ranking in production

Automotive Industry In Türkiye

Strong Presence of Global Tier-1 Suppliers

30+ out of 100 biggest global suppliers are in Türkiye

BORGWARNER

Automotive Industry In Türkiye

Vehicle Production Output on the Rise

1,42M units produced in 2025 — passenger cars account for over 60% of total output

Total Production (million unit)

Production Volume by Vehicle Category (thousand unit, 2025)

Automotive Industry In Türkiye

Rising Production Capacity

Total capacity expanded to 2.1M units in 2025, while bus and midibus utilization rates more than doubled since 2021

Total Capacity (unit)

Capacity Usage (%)

Automotive Industry In Türkiye

High Local Contribution Rates

Most manufacturers exceed 50% — commercial vehicles lead with rates up to 70%

Commercial Vehicles' Localization Rates 2025 (%)

Passenger Vehicles' Localization Rate 2025 (%)

Automotive Industry In Türkiye

Automotive: the Flagship Sector for Exports

Türkiye's largest export category for years, automotive exports reached a record \$41.5B in 2025 — representing 28% of manufacturing and 17.5% of total exports

Automotive Industry Export (Billion \$)

Automotive Export Share (2025)

Automotive Industry In Türkiye

Europe's Manufacturing Partner

With export rates consistently above 70%, Türkiye's top 10 destinations representing 75% of total automotive exports are exclusively European markets.

Electric Vehicles & Future Mobility

EV Production: Passenger Cars

Türkiye's electrified vehicle production capacity is on the rise

Fully Electric

Full electric vehicle
production at its Bursa plant
with a **production capacity**
175k / year

Produces **Türkiye's 1st all-
electric SUV model T10X, 1st
all-electric Sedan model**
T10F

Total investment amount: **\$2
billion**

Already producing in
Türkiye since 1997 with a
production capacity
245k / year

Full electric vehicle
production at its Izmit
plant **in 2026**

Türkiye's **2nd EV**
manufacturer, and the
1st among global brands

Model will be produced:
IONIQ 3

Plug-in Hybrid & Hybrid

Toyota's **1st European**
plant to produce PHEV
and batteries

Corolla Sedan (Incl.
HEV), C-HR (Incl. HEV,
PHEV), Plug-in-hybrid
batteries

Battery assembly line
capacity: **75k/year**

Sales started in 2023

RENAULT

Renault will **globally**
launch **8 new models**
with an investment of
over **€3 billion**.by **2027**

4 of them will be
produced in Türkiye

Apart from **Renault**
Duster and **Renault**
Boreal, **2 new models**
will be launched

Total investment
amount: \$400 million

Electric Vehicles & Future Mobility

EV Production: Commercial Vehicles

Türkiye's electrified vehicle production capacity is on the rise

LCV: Fully Electric

\$3 billion investment for the production of **fully electric Ford Transit in 2021** with a **production capacity 210k/year**

Türkiye's **1st mass-produced** electric commercial vehicle

Ford's **1st fully electric** Transit model globally

CV: Fully Electric

ANADOLU ISUZU

1st battery-electric midibus was exported in 2021 (Novociti Volt)

2022-2024: modernization investment including EV production infrastructure, a new battery assembly area, BIG.e EV production line, and refurbished cataphoresis unit

MAN Truck & Bus's **1st production facility outside Germany and largest integrated bus factory.**

Only R&D center responsible for bus development as part of VW group (Traton) is in Türkiye

Ranked **8th in Europe's electric public transport market** with a 4.5% share (2024).

82% of all Türkiye-origin electric public transport vehicles registered in Europe belong to Karsan.

Electric Vehicles & Future Mobility

EV Production: Commercial Vehicles

Türkiye's electrified vehicle production capacity is on the rise

CV: Fully Electric

Otokar

Produced **Türkiye's 1st electric public transport bus** in 2012

Also focuses on **next-gen mobility** with **Level 4 autonomous** and **hydrogen fuel cell systems**.

Over \$310 million investment in R&D over the past decade

Battery management systems and **ECUs** are designed and developed in-house.

R&D activities focus on **EVs**, **energy storage technologies**, and **autonomous vehicles**.

BMC is one of Türkiye's largest military vehicle manufacturers, producing tactical wheeled vehicles, armored vehicles and the Altay main battle tank

Complete vehicle development in house

Diesel, CNG, fully electric options

Electric Vehicles & Future Mobility

Battery Production

Battery production ecosystem is emerging in Türkiye

20 GWh / year

Headquarter: Kocaeli/Türkiye

Togg-Farasis Energy
partnership

NMC Li-ion batteries

3 GWh / year

Headquarter: Ankara/Türkiye

Li-ion(LiFeP04) battery cells &
ESS

Mass production began by
2024

Turkish manufacturer

220 MWh / year

Headquarter: Kayseri/Türkiye

Li-ion cylindrical battery cells
production since 2022

Turkish manufacturer
specialized in the defense
industry

Electric Vehicles & Future Mobility

EV Sales in Türkiye

In 2025, nearly 1 out of 2 vehicles sold in Türkiye was electrified, hybrid or fully electric

Vehicle Sales by Powertrain Type (Unit, 2020-2025)

Vehicle Sales Share by Powertrain Type (2020-2025)

Electric Vehicles & Future Mobility

EV Stock in Türkiye

Conventional fuel types still dominate Türkiye's vehicle stock, but the growing number and share of EVs and hybrids show a clear shift toward electrification.

EV and Hybrid Vehicles in Traffic (2020-2025)

Fuel Type in Vehicles in Traffic (2025)

Electric Vehicles & Future Mobility

Charging Infrastructure

With over 38k sockets, Türkiye provides 1 charging point for every 9 EVs.

Total Number of Charging Points (Sockets)

Distribution of Charging Points by Power Capacity (Total #)

Electric Vehicles & Future Mobility

Domestic Production Supports

HIT-30

Electric Vehicle Call

Total Support Budget
\$5 Billion

Investment Qualifications

Investments with a
**minimum of 150K
vehicle** capacity

Limited to **BEV** and
PHEV production

Full Production
Investments

Establishment of
R&D center

Supports to be Provided

- ✓ **Customs tax exemption** for a certain number of vehicles and/or **grant supports** up to 15%
- ✓ **Tax incentive** up to 80%
- ✓ **Tax exemptions**
- ✓ Allocation of investment land
- ✓ Employment supports
- ✓ Financing supports

HIT-30

Battery Call

Total Support Budget
\$4.5 Billion

Investment Qualifications

Investments with a
minimum of **5 GWh**
capacity

**Vehicle and storage
batteries**, active
materials

Production
including **cells**

Establishment of
R&D center

Supports to be Provided

- ✓ **Grant support** up to 25%
- ✓ **Tax support** up to 60%
- ✓ **Tax exemptions**
- ✓ Allocation of investment land
- ✓ Employment supports
- ✓ Financing supports

Up to \$6,000 grant per MWh until year 2030
